**Summary of reasons
for classification:**

The computer image file *0022 copy.jpg* is classified as:
Objectionable.

The publication exploits the nudity of a young person by presenting an adolescent girl naked for the viewer's close inspection. The image is reasonably capable of being regarded as sexual in nature and is in a format allowing it to be easily distributed over the internet among people with a sexual interest in young persons. Therefore the publication exploits the nudity of young persons in such a manner that its availability is likely to be injurious to the public good.

The classification of this publication interferes with the freedom of expression as set out in s14 of the New Zealand Bill of Rights Act 1990. This outcome is consistent, however, with Parliament's intention in the Films, Videos, and Publications Classification Act 1993 to limit the availability of publications that exploit the nudity of children and young persons.
